

National Donor Sabbath | November 11-13, 2016

Annual Observance usually two weekends before Thanksgiving

Here are some ideas that you can use to join others across the nation in observing National Donor Sabbath

- Conduct a sermon on the importance of eye, organ and tissue donation. If you have received the gift of sight or life or know someone who has, ask to speak during worship, or during a worship group meeting
- Place an article in your bulletin or newsletter. We've prepared these for you on our website
- Add Lions Eye Bank at Rochester as a link to your place of worship's website www.lionseyebankrochester.org
- Request a speaker from Lions Eye Bank at Rochester to present on eye, organ and tissue donation at your place of worship
- Hold a special ceremony (candle light, place a rose) in honor of eye, organ and tissue donors. A guide and readings available on this site to assist you.
